

Raising GCSE Mathematics Attainment

A targeted small-group intervention for Heads of Mathematics and Pupil Premium Leads

Ideal for schools seeking to:

- Increase Grade 4+ outcomes
- Support pupils currently working at Grades 3-5
- Stretch Grade 5 pupils towards Grades 6-7
- Improve outcomes for disadvantaged and Pupil Premium pupils
- Deliver targeted intervention without increasing staff workload

Delivered by an experienced practising teacher

Every session is delivered by **Ansa Bassey**, a currently practising secondary Mathematics teacher with **18 years' classroom experience**. She teaches GCSE Mathematics and Further Mathematics at a selective grammar school in Kent. She holds a PGCE in Secondary Mathematics, an MSc in Process Chemical Engineering and maintains an Enhanced DBS.

A proven teaching approach

The programme combines Ansa's extensive classroom experience with the structured approach she has developed through private one-to-one and small-group GCSE tuition since 2022. Teaching begins with diagnostic assessment, targets each pupil's specific misconceptions and remains aligned with the school's scheme of work and examination board.

What your school receives	Programme focus
• Diagnostic assessment before teaching begins • Small groups of 4-5 pupils • Twelve weekly 60-minute after-school sessions • Lessons aligned to your scheme of work and exam board • Mid-programme progress review • Final impact report suitable for Pupil Premium and Ofsted evidence	• Year 10 and Year 11 pupils • Grade 3 to Grade 5 transition • Grade 5 to Grade 7 stretch • Foundation and Higher tier support • Delivery on school premises after school • September 2026 or January 2027 start

Private tuition results

Since 2022, Ansa has supported **18 GCSE candidates** through private one-to-one and small-group tuition across Foundation and Higher tiers, with an **average improvement of +1.4 GCSE grades**.

"Ansa worked with our son through Year 11. She adapted every session to what he actually did not understand - not what a textbook thought he should be doing. He moved from a predicted Grade 3 to a Grade 6 at GCSE."
- K. Robinson, parent

Limited availability for 2026/27

Capacity is intentionally limited to a small number of Thurrock secondary schools each academic year to ensure a high-quality, personalised service and meaningful progress reporting.
